DATASHEET

General data

HDMI™ to DisplayPort adapter that allows you to transmit the signal from an HDMI™ source (DVI, tablet, PC, etc.) to a DisplayPort monitor.
Uses a USB port for power, thus avoiding the need for an additional power supply.
It has a compact design and is very convenient to take with you anywhere.
The HDMI™ to DP Converter allows you to add a second monitor to your laptop, allowing you to view documents, spreadsheets or web pages on multiple screens.
Thanks to the 4K video resolution, it gives pleasant sharp and realistic images.
