

# DATASHEET

## LSA Overvoltage Arrester 8x13 / 90 V / 10 kA

### General data

Gas-filled  
Rated discharge current 10 kA

### Tekniske egenskaber

### Available variants

| ArtNr.  | Bezeichnung                                                    | Frequency | Nominal<br>discharge<br>surge<br>current<br>(8/20) | Nominal<br>load<br>current | Nominal<br>voltage<br>AC | Nominal<br>voltage<br>DC | Pro-active<br>thermo-control | Type                                   |
|---------|----------------------------------------------------------------|-----------|----------------------------------------------------|----------------------------|--------------------------|--------------------------|------------------------------|----------------------------------------|
| 46145.1 | LSA Overvoltage<br>Arrester 8x13 / 90 V<br>/ 10 kA             | 3 Hz      | 10 kA                                              | 10000 A                    | 90.0 V                   | 90 V                     | True                         | 8x13 / 90V<br>/ 10kA                   |
| 46146.1 | LSA Overvoltage<br>Arrester 8x13 / 230<br>V / 10 kA            | 3 Hz      | 10 kA                                              | 10000 A                    | 250 V                    | 230 V                    | True                         | 8x13 /<br>230V /<br>10kA               |
| 46147.1 | LSA Overvoltage<br>Arrester 8x13 / 230<br>V / 10 kA + FailSafe | 3 Hz      | 10 kA                                              | 10000 A                    | 250 V                    | 230 V                    | True                         | 8x13 /<br>230V /<br>10kA +<br>Failsave |

### Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.

This datasheet was created automatically on 02-10-2026 . Technical changes reserved.
