DATASHEET

General data

Compact 6-chamber splice protector holder
Discover our high-quality, compact 6-chamber splice protector holder - the perfect solution for your fiber optic splicing work. This holder offers safe and organized storage for shrink splice protectors and ensures that your splicing work can always be carried out efficiently and professionally.

Product features:
• **6 chambers:** The holder has 6 separate chambers, each of which offers space for two stacked shrink splice protectors. This allows a maximum capacity of 12 shrink splice protectors per holder.
• **Easy to use:** The splice protector holder can be effortlessly clicked into a splice cassette, which makes installation and maintenance much easier. No additional tools or complicated assembly necessary.
• **Compact design:** Despite its high capacity, the splice protector holder is compact and space-saving. Ideal for use in confined spaces or for projects where efficiency and order are top priorities.
• **Robust material:** Made of durable plastic, the holder offers reliable protection and a long service life. Your splice protectors are optimally protected against external influences.
• **Universal compatibility:** The holder is compatible with the most common splice cassettes and shrink splice protectors, which allows for versatile use.

Advantages:
• **Time saving:**The simple click assembly saves you valuable working time and allows you to concentrate on what is important.

WIR SORGEN FÜR VERBINDUNG
WE CARE FOR CONNECTION

• **Safe storage:** The stable construction ensures that your shrink splice protectors are stored safely and in an orderly manner.
• **Flexibility:** Thanks to the capacity of 12 shrink splice protectors, you are well equipped for extensive splicing work.

Optimize your fiber optic installations with our compact splice protection holder and experience the advantages of a well thought-out and efficient way of working. Order now and benefit from the excellent quality and functionality of this indispensable tool!
