DATASHEET

General data

Senko's high-quality SC connector in beige is designed for the production and connection of fibre optic cables. As the SC Multimode fibre optic connector for crimping, it is suitable for use in network, data centre and telecommunications environments.

• Designed for multimode fibre applications – Supports optical connections with the appropriate fibre type in typical multimode installations.
• SC connector type in connector type with crimp connection type – Enables a standardised and clean connection of fibre optic cables.
• Ferrule with PC and scope of delivery as a plug set including strain-relief boot – Supports optical coupling and facilitates complete assembly.

The design of the connector is based on a crimp connection type and a ferrule with PC. The version is intended for cables with a diameter of 2 mm. The beige connector is complemented by a black strain-relief boot. This supports

clean assembly and mechanical protection of the assembly.

Technical details
- Connector type: SC
- Type: Plug
- Connection type: Crimping
- Suitable for fibre type: Multimode
- Cable Ø: 2 mm
- Ferrule angle: PC
- Brand: Senko
- Colour: beige
- Strain-relief boot colour: black
- Scope of delivery: 1x SC plug set, 1x SC strain-relief boot

Tekniske egenskaber

Available variants

ArtNr.	Bezeichnung	Anti-kink sleeve	Cable Ø	Colour	Suitable for type of fibre
53206.11		black	3.0 mm	beige	Multi mode
53206.12		red	3.0 mm	beige	Multi mode
53206.21		black	2.0 mm	beige	Multi mode
53206.22		red	2.0 mm	beige	Multi mode
53213.2		blue	3.0 mm	blue	Single mode
53214.1		green	3.0 mm	Green	Single mode
53214.2		green	3.0 mm	Green	Single mode

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
