

DATASHEET

General data

The LC strain-relief boot from EFB-Elektronik in white is designed for fibre optic connections with LC connectors. It is intended for cables with a diameter of 2 mm and is designed as a plug. The white strain-relief boot grommet supports a clean implementation at the cable exit.

- LC connector type in connector type – Intended for LC-based connections and supports a fitting termination at the mating area.
- Designed for 2mm diameter cables – Fits the intended cable thickness and supports proper routing in the transition area.
- White strain-relief boot included – Allows for a full finish with uniform colour scheme.

The design is designed for use as LC strain-relief boot. The plug version and the white strain-relief boot grommet are intended for cables with a diameter of 2 mm. The scope of delivery includes 1x LC strain-relief boot.

Technical details

- Connector type: LC
- Type: Plug
- Cable diameter: 2 mm
- Brand: EFB-Elektronik
- Colour: white
- Strain-relief boot colour: white
