# DATASHEET

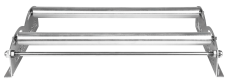

## General data

**EFB Cable Reel – Width 600 mm, Depth 400 mm, Height 100 mm**
**The intelligent solution for easily winding and unwinding large cable drums**

The EFB cable drum reel unwinder is the ideal support for extensive cabling projects – whether on construction sites, in workshops, or in data centers.

It enables torsion-free, clean, and material-friendly unwinding of all types of drums.
The reel is suitable for drums with a width of up to 540 mm and a weight of up to 150 kg.
The flexibly adjustable support rollers allow for the use of cable drums with a diameter of 102 to 540 mm.
Thanks to its low weight, the unwinder can be easily transported and quickly set up.
The galvanized steel frame ensures high stability, durability, and maintenance-free operation – ideal for continuous professional use.

**Technical Specifications:**

- Dispenser dimensions: 600 × 400 × 100 mm (W × D × H)
- Max. drum width: 540 mm
- Max. load capacity: 150 kg
- Drum diameter: 102–540 mm

## Tekniske egenskaber

## Available variants

| ArtNr. | Bezeichnung | Lifting capacity | Load bearing capacity | Max. diameter cable drum | Max. width cable drum | Model | Mounting method |
|---|---|---|---|---|---|---|---|
| 57111.1 | | 150 kg | 150 kg | 540 mm | 540 mm | Axis for drum | Bottom mounting |

**Note on Intended Use**

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
