DATASHEET

General data

The 19"/10" wall-mounted enclosure from EFB-Elektronik in a grey version according to RAL 7035 is designed for structured installations in technical environments. The pre-assembled construction with fixed frame and welded frame creates a stable base, the powder-coated steel construction is designed for long-term indoor use.

• Vertical 19"/10" combination with 364 mm width and 543 mm height – Creates a compact, well-defined installation situation for network and IT components.
• Fixed frame with welded frame and powder-coated steel construction – Provides a stable base and high dimensional stability during operation.
• Front door with 4 mm viewing window made of certified safety glass and preparation for plug & play fan unit – Enables visual inspection and creates reserves for later active cooling.

In terms of technical design, the housing combines a mounting level at the front with passive ventilation and protection class IP20. The cable entry over the roof and floor, each measuring 145 x 77 mm, supports clean cable routing, while the left side wall can be folded out and the right side wall is equipped with slotted holes for wall mounting. The front door is designed as a glass door with latch lock and viewing window made of 4 mm safety glass. The scope of delivery and packaging are designed for a standardised project process.

Technical details
• Number of doors: 2
• Degree of protection: IP20

WIR SORGEN FÜR VERBINDUNG
WE CARE FOR CONNECTION

- Type of ventilation: passive
- Air inlet floor: roof + floor, each 145 x 77 mm
- With roof panel: Yes
- With front door: Yes
- With side panels: Yes, openable, lockable
- Mounting level: front
- Front door version: glass door with latch lock and viewing window made of certified safety glass (4 mm)
- Front door locking: Latch lock
- Scope of delivery: 1x cabinet, 1x brush strip, 1x plastic cover, mounting material, 2x keys
- Packaging: 1 carton
