DATASHEET

General data

The 19" 2U cable management panel from EFB-Elektronik is designed for orderly and clear cable routing at the 19" level and fits universal cabinet series. The cable management version combines steel with polyamide and is powder-coated in black RAL 9005. The galvanized cable brackets support robust and at the same time practical cable routing.

• Structured cable routing with a small footprint – The panel uses 2U for clear routing in the 19-inch plane.
• Stable and flexible – Particularly stable steel double brackets with a diameter of 5 mm can be rotated in 90° steps and can be fixed in a twist-proof manner.
• Designed for standardized rack environments – With a width of 482.6 mm, the panel is intended for 19" mounting and can be used universally.

The construction is designed for professional use in 19" installations. The combination of steel and polyamide creates a resilient cable routing with a clear structure. The brackets are 75 mm long and galvanized. The delivery is unassembled, which allows flexible installation in the respective installation environment.

Technical details
• Brand: EFB-Elektronik
• Category: Cable Routing
• Cabinet Series: Universal
• Number of rack units (U): 2U
• Colour: black

This datasheet was created automatically on 01-11-2026 . Technical changes reserved.

- RAL number: 9005
- Design: Cable routing
- Width: 482.6 mm
- Suitable for 482.6 mm (19 in) mounting: Yes
- Surface finish: powder-coated, galvanized temples
- Material: steel, polyamide
- Number of brackets: 5
- Temple length: 75 mm
- Scope of delivery: 1 x base plate, 5 x cable brackets, 5 x screw + nut M3
