DATASHEET

General data

Netgear AXM761 compatible 10GBASE-SR SFP+ transceiver with LC duplex connection according to MSA standards from the BlueOptics brand. The Netgear AXM761 compatible 10GBASE-SR LC Duplex SFP+ has a receiving function (receiver with 850nm) and a sending function (transmitter with 850nm) for the transmission of optical signals via multimode fiber, taking the respective transmission protocol into account. This Netgear AXM761 compatible 10GBASE-SR LC Duplex SFP+ is suitable for use in all common hardware platforms (such as switches, routers, storage systems, load balancers, measuring devices, etc.) that also support the original Netgear AXM761 10GBASE-SR LC Duplex SFP+ officially support. Each Netgear AXM761 compatible 10GBASE-SR LC Duplex SFP+ supports Ethernet, Fiber Channel over Ethernet or SDH/SONET high-speed applications of up to 10G per second.

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.

This datasheet was created automatically on 02-11-2026 . Technical changes reserved.
