DATASHEET

General data

The pull-out splice box from EFB-Elektronik is designed for the structured pick-up of splices and the clear management of multimode fibre optic connections in a 19-inch rack. It combines a compact design with service-friendly access and is designed for OM4 multimode 50/125.

• 1U in 19-inch pull-out format – Allows for space-saving integration in the rack and simplifies maintenance and access to the splice level.
• Front panel with 6 SC duplex couplings and 6 blanking plugs – Ensures neatly pre-assembled assembly and keeps unused positions neatly sealed.
• 12 SC pigtails with LSZH jacket and 2 m length – Support structured splicing organisation and reduce installation effort.

The sheet steel housing in grey according to RAL 7035 is designed for the clean routing of the fibre optic lines. The OM4 fibre class for multimode 50/125, the ceramic ferrule guide and the LSZH-coated pigtails support the use in

professional multimode installations. Pre-assembled crimp/ANT splice holders and enclosed shrink splice holders create additional flexibility in splice organisation.

Technical details
- Extendable: extendable
- Fibre class: OM4
- Couplings: SC-Duplex
- With number of couplings/adapters: 6
- Coupling material: plastic
- Pigtail: 12 x SC
- Pigtail prepared: not settled

Tekniske egenskaber

Available variants

ArtNr.	Bezeichnung	Colour	Pigtail	Suitable for number of couplings/adapters	Type of connector external	With number of couplings/adapters
