DATASHEET

General data

The pull-out splice box from EFB-Elektronik is designed for the structured pick-up of splices and the clear management of multimode fibre optic connections in a 19-inch rack. It is designed for OM4 multimode 50/125 and combines pre-assembled SC duplex couplings with a service-friendly pull-out design.

• 1U, 19-inch extendable design – Allows for compact integration in the rack and facilitates maintenance and access to the splice level.
• Front panel with 12 SC duplex couplings – Ensures a clean, pre-terminated assembly and keeps the fibreglass guide uncluttered.
• 24 SC pigtails with LSZH jacket and 2 m length – Support efficient splicing organisation and reduce installation effort.

The sheet steel housing in grey according to RAL 7035 supports robust and clean integration in the rack. The OM4 fibre class for multimode 50/125, the ceramic ferrule guide of the SC duplex couplings and the LSZH-coated pigtails are designed for professional multimode installations. Pre-assembled crimp/ANT splice holders and included shrink

splice holders also facilitate flexible organisation of the splice level.

Technical details
- Extendable: Yes
- Fibre class: OM4
- Couplings: SC-Duplex
- With number of couplings/adapters: 12
- Coupling material: plastic
- Pigtail: 24 x SC
- Pigtail prepared: not settled

Tekniske egenskaber

Available variants

ArtNr.	Bezeichnung	Colour	Pigtail	Suitable for number of couplings/adapters	Type of connector external	With number of couplings/adapters
B71203L12OM4		grey	12 x SC	12	SC-Duplex	6
B71203L24OM4		grey	24 x SC	12	SC-Duplex	12

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
