DATASHEET

General data

The pull-out splice box from EFB-Elektronik is designed for the structured pick-up of splices and the clear management of single-mode fibre optic connections in a 19-inch rack. The 1U version combines compact integration with service-friendly access to the splice level. The sheet steel housing in grey according to RAL 7035 supports professional and robust installation.

• 1U, 19-inch extendable design – Allows for compact integration into the rack and simplifies access to the splice level for maintenance and expansion.
• Front panel with 12 SC duplex vertical couplings in blue – Provides pre-terminated assembly and clear port mapping in the rack.
• 24 x LSZH Sheathed SC Pigtails 2m Length – Support clean splice organisation and reduce installation effort.

The housing is designed for 482.6 mm 19-inch installation and addresses OS2 in accordance with ITU-T G.652.D in the single-mode environment 9/125. The ceramic ferrule guide as well as pre-assembled crimp/ANT splice holders and

enclosed shrink splice holders support flexible and clear splice organisation.

Technical details
- Extendable: Yes
- Fibre class: OS2 according to ITU-T G.652.D
- Couplings: SC-Duplex
- With number of couplings/adapters: 12
- Coupling material: plastic
- Pigtail: 24 x SC
- Pigtail prepared: not settled

Tekniske egenskaber

Available variants

ArtNr.	Bezeichnung	Colour	Pigtail	Suitable for number of couplings/adapters	Type of connector external	With number of couplings/adapters
B71223L12		grey	12 x SC	12	SC-Duplex	6
B71223L24		grey	24 x SC	12	SC-Duplex	12

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
