DATASHEET

General data

The pull-out splice box from EFB-Elektronik is designed for the structured pick-up of splices and the clear management of multimode fibre optic connections in the 19-inch rack. The OM4 version for Multimode 50/125 combines pre-assembled LC duplex couplings with a service-friendly, pull-out design.

• Compact 1U design in 19" format – Enables space-saving integration into the rack and facilitates access to the splice level during maintenance and removal.
• Front panel with 6 LC duplex couplings and 6 blanking plugs – Ensures pre-assembled assembly and keeps unused positions neatly sealed.
• 12 LC pigtails with LSZH jacket and 2 m length – Support efficient splicing organisation and reduce installation effort in multimode environments.

The sheet steel housing in grey according to RAL 7035, the vertical alignment of the couplings and the ceramic ferrule guide support clean and professional glass fibre routing. The concept is complemented by 12 prepared LC pigtails with

loose-buffered construction, pre-assembled crimp/ANT splice holders and enclosed shrink splice holders for flexible splice organisation.

Technical details
- Extendable: extendable
- Fibre class: OM4
- Couplings: LC-Duplex
- With number of couplings/adapters: 6
- Coupling material: plastic
- Pigtail: 12 x LC
- Pigtail prepared: not settled

Tekniske egenskaber

Available variants

ArtNr.	Bezeichnung	Colour	Pigtail	Suitable for number of couplings/adapters	Type of connector external	With number of couplings/adapters
B71901L12OM4		grey	12 x LC	12	LC-Duplex	6
B71901L24OM4		grey	24 x LC	12	12	
B71901L48OM4		grey	48 x LC	24	LC-Duplex	24

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
