DATASHEET

General data

The pull-out splice box from EFB-Elektronik is designed for the structured pick-up of splices and the clear management of multimode fibre optic connections in a 19-inch rack. With 1 U, OM4 Multimode 50/125 and pre-assembled LC duplex assembly, it combines a compact design with service-friendly access.

• 1U, 19-inch extendable design – Allows for compact integration into the rack and facilitates maintenance and access to the splice level.
• Front panel with 24 LC duplex couplings – Ensures pre-assembled and clearly structured assembly in the front area.
• 48 prepared LC pigtails with LSZH jacket and 2 m length – Support efficient splicing organisation and reduce installation effort.

The sheet steel housing in grey according to RAL 7035 is designed for clean guidance of the fibre optic lines. The OM4 fibre class for multimode 50/125, the ceramic ferrule guide and the LSZH-coated pigtails support the use in professional multimode installations. Pre-assembled crimp/ANT splice holders and enclosed shrink splice holders

WIR SORGEN FÜR VERBINDUNG
WE CARE FOR CONNECTION

complete the design for a flexible splice organisation.

Technical details
- Extendable: extendable
- Fibre class: OM4
- Couplings: LC-Duplex
- With number of couplings/adapters: 24
- Coupling material: plastic
- Pigtail: 48 x LC
- Pigtail prepared: not settled

Tekniske egenskaber

Available variants

ArtNr.	Bezeichnung	Colour	Pigtail	Suitable for number of couplings/adapters	Type of connector external	With number of couplings/adapters
B71901L12OM4		grey	12 x LC	12	LC-Duplex	6
B71901L24OM4		grey	24 x LC	12	12	
B71901L48OM4		grey	48 x LC	24	LC-Duplex	24

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
