DATASHEET

General data

The pull-out splice box from EFB-Elektronik is designed for the structured pick-up of splices and the clear management of multimode fibre optic connections in a 19-inch rack. It is designed for OM4 multimode 50/125 and combines pre-assembled SC duplex couplings with a service-friendly design.

• 1U, 19-inch extendable design – Allows for compact integration into the rack and makes it easy to access the splice level for maintenance and installation.
• Front panel with 6 SC duplex couplings and 6 blanking plugs – Ensures neatly pre-assembled assembly and keeps unused positions neatly sealed.
• 12 prepared SC pigtails with LSZH jacket and 2 m length – Support efficient splicing organisation and reduce installation effort.

The sheet steel housing in grey according to RAL 7035 is designed for clean routing of the fibre optic lines. The OM4 fibre class for multimode 50/125, the ceramic ferrule guide and the LSZH-coated pigtails support the use in

professional multimode installations. Pre-assembled crimp/ANT splice holders and enclosed shrink splice holders enable flexible splice organisation in the splice cassette supplied.

Technical details
- Extendable: Yes
- Fibre class: OM4
- Couplings: SC-Duplex
- With number of couplings/adapters: 6
- Coupling material: plastic
- Pigtail: 12 x SC
- Pigtails prepared: discontinued

Tekniske egenskaber

Available variants

ArtNr.	Bezeichnung	Colour	Pigtail	Suitable for number of couplings/adapters	Type of connector external	With number of couplings/adapters
