DATASHEET

General data

The pull-out splice box from EFB-Elektronik is designed for the structured pick-up of splices in a 19-inch rack. It supports multimode connections in OM3 50/125 and combines a compact 1U design with a service-friendly pull-out mechanism.

• 1U, 19-inch extendable design – Allows for compact integration in the rack and facilitates maintenance and access to the splice level.
• Front panel with 6 LC duplex couplings and 6 blanking plugs – Ensures clean, pre-assembled assembly and keeps unused positions neatly sealed.
• 12 prepared LC pigtails with LSZH jacket and 2m length – Support efficient splicing organisation and reduce installation effort.

The sheet steel housing in grey according to RAL 7035 is designed for clean routing of the fibre optic lines. The OM3 fibre class for multimode 50/125, the ceramic ferrule guide and the LSZH-coated pigtails support the use in

professional multimode installations. Pre-assembled crimp/ANT splice holders and enclosed shrink splice holders enable flexible splice organisation. A splice cassette with a capacity of 4 splices completes the overall concept.

Technical details
- Extendable: extendable
- Fibre class: OM3
- Couplings: LC-Duplex
- With number of couplings/adapters: 6
- Coupling material: plastic
- Pigtail: 12 x LC
- Pigtail prepared: discontinued

Tekniske egenskaber

Available variants

ArtNr.	Bezeichnung	Colour	Pigtail	Suitable for number of couplings/adapters	Type of connector external	With number of couplings/adapters
BA71901L12OM3		grey	12 x LC	12	LC-Duplex	6
BA71901L24OM3		grey	24 x LC	12	LC-Duplex	12
BA71901L48OM3		grey	48 x LC	24	LC-Duplex	24

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
