DATASHEET

General data

This designable UAE support ring from EFB-Elektronik is designed for flush-mounted mounting and accommodates two keystone modules. The silver version combines a compact design with unobtrusive integration into modern installations.

• Design-ready silver finish – Supports a discreet look and blends harmoniously into high-quality installation environments.
• Holder for two keystone modules – Enables modular double assembly and creates scope for flexible system concepts.
• Flush-mounted mounting with screw mounting – Ensures stable and space-saving installation and facilitates professional installation in the wall area.

The UAE support ring is designed for use with keystone modules and is designed for two units. With dimensions of 70 mm wide, 70 mm high and 23.7 mm deep, the design remains compact. The halogen-free choice of materials and the fastening with screw underline the clear technical orientation for structured installations where a design-ready solution is required.

Technical details
• Brand: EFB-Elektronik
• Connection unit: UAE
• Holder for: Keystone
• Mounting type: Flush-mounted
• Mounting type: Fastening with screw
• Colour: silver
• Suitable for number of bushings/couplings: 2
• Device width: 70 mm
• Device height: 70 mm
• Device depth: 23.7 mm

This datasheet was created automatically on 01-11-2026 . Technical changes reserved.
