DATASHEET

General data

This Keystone distribution box from EFB-Elektronik in the version as an empty enclosure is designed for surface mounting and can also be used on the wall as well as on the DIN rail. With a straight outlet direction and self-closing dust protection, it combines a compact design with a clear and robust integration into structured installations.

• Surface mounting, wall mounting, and DIN rail mounting – Provides flexible installation options for different installation environments and makes it easy to adapt to the existing setup.
• Designed for a socket or coupling – Enables a compact, single-port solution with clear mapping and reduced complexity.
• Self-closing dust cover – Protects the connection area in everyday life and supports clean, long-lasting use.

The version is designed as a keystone empty enclosure and is intended for a single socket or coupling. The straight outlet direction and the fastening by screws support stable installation with clear cable routing. The dust protection complements the concept for structured installations, while the IP20 protection class underlines the suitability for

indoor use.

Technical details
- Brand: EFB-Elektronik
- Variant: Keystone empty enclosure
- Surface mounting: Yes
- Wall mounting: Yes
- DIN rail mounting: Yes
- Outlet direction: straight
- Mounting type: Screws
- With dust cover: Yes
- Suitable for number of bushings/couplings: 1
- Degree of protection (IP): IP20
