DATASHEET

General data

The fibre pigtail SC/APC OS2 G657A2 from EFB-Elektronik is designed for professional fibre optic splice connections in single-mode fibre optic networks. The version as a 2.0 m long wire pigtail with tight-buffered fibre is intended for standard-compliant use in the installation environment.

• OS2 G657A2 in single-mode 9/125 – Supports use in professional fibre optic splice connections and is designed for bend-optimised applications.
• SC/APC connector according to IEC61754-4 – Ensures a standard-compliant interface and clear identification by the green connector colour.
• 2.0 m single pigtail with 0.9 mm outer diameter, loose buffer and attached strain-relief boot – Facilitates processing in the splice area and protects the fibre transition.

Technically, it is a wire pigtail in the category OS2 G657A2 with single-mode 9/125. The fibre is specified according to IEC60793-2 and is intended as a bend-optimised version. The connector SC/APC corresponds to IEC61754-4 and is

designed in green. The monochrome yellow marking supports the assignment. The single-mode quality class is specified as B/1 according to IEC 61753-021-2. A test report is available.

Technical details
- Type: fibre pigtail
- Fibre construction: tight-buffered fibre
- Connector type: SC/APC
- Fibre type: Single-mode 9/125
- Category: OS2 G657A2
- Single-mode quality class: B/1 according to IEC 61753-021-2
- Length: 2.0 m
- Outer diameter: 0.9 mm
- Buffer: loose
- Colour: yellow
- Colour code: solid colour
- Connector colour: green
- Connector standard: IEC61754-4
- Cable standard: IEC60793-2
- Bend-optimised fibre: Yes
- With fitted strain-relief boot
- Test report available
- Scope of delivery: 1 pigtail
