DATASHEET

General data

The fibre pigtail SC/APC OS2 G657A2 from EFB-Elektronik is designed for professional fibre optic splice connections in single-mode fibre optic networks. The version as a 2.0 m long set with 12 pigtails is intended for standard-compliant use in the installation environment.

• SC/APC connector according to IEC61754-4 – Ensures a standard-compliant interface and supports clear assignment through the green connector colour.
• OS2 G657A2 in single-mode 9/125 with bend-optimised fibre – Suitable for demanding installation environments and increases robustness at tight bending radii.
• 2.0 m wire pigtail in a set of 12 with fitted strain-relief boot grommet – facilitates processing in the splice area and protects the fibre transfer in everyday installation.

Technically, it is a wire pigtail with an outer diameter of 0.9 mm and a loose buffer. The single-mode version in the OS2 G657A2 category is specified according to IEC60793-2 and meets the requirements for professional use in quality

WE CARE FOR CONNECTION

class B/1 according to IEC 61753-021-2. The SC/APC connector corresponds to IEC61754-4 and is green. The marking according to DIN colour code and VDE-0888 supports the clear assignment. An attached strain-relief boot grommet is provided and a test report is available.

Technical details
- Type: fibre pigtail
- Fibre construction: tight-buffered fibre
- Connector type: SC/APC
- Fibre type: Single-mode 9/125
- Category: OS2 G657A2
- Single-mode quality class: B/1 according to IEC 61753-021-2
- Length: 2.0 m
- Outer diameter: 0.9 mm
- Buffer: loose
- Colour: DIN colour code
- Colour code: VDE-0888
- Connector colour: green
- Connector standard: IEC61754-4
- Cable standard: IEC60793-2
- Bend-optimised fibre: Yes
- With fitted strain-relief boot
- Test report available
- Scope of delivery: 1 set (12 pigtails)
