DATASHEET

General data

Extend and protect your USB port: With this USB extension you will no longer have to reach behind your TV or desktop to connect a USB stick or other peripherals, but you will be able to extend the USB port to a more convenient and easy to reach position. Furthermore, this USB 3.2 type extension cable is perfect for protecting the USB sockets of your devices from repeated plugging and unplugging
Compliant with USB 3.2 specification; Data transfer up to 5 Gbps; Plug and play, does not require the installation of drivers; Compatible Windows and Mac

USB3.2 extender: boosts the signal to any USB device supports data transfer speeds up to 5 Gbps
Built-in repeater to help maintain USB 3.2 signal quality, electrical and timing specifications
Allows you to overcome the 5m USB distance limitation - ideal for connecting mouse, keyboard, flash disk, printer, card reader, camera, PlayStation, Xbox and other USB peripherals to your PC or Mac
Plug and Play USB signal extender; Compatible with Windows Vista/XP/7/8/10/11, Mac OS 9 or later
Bus-powered — requires no external power
Connections
(1) USB; type A Male
(1) USB; type A Female
General information
Speed: 5 Gbps
Bus powered
Supports all operating systems with USB

Active VL817-Q7 chipset
Compatibility
Windows
Mac OS 9 and later
Physical information
Length: 10m
AWG 28
Gold-plated pins
Colour: Black

Certifications
EC
USB 1.0
USB 1.1
USB 2.0
USB 3.2
WEEE

Tekniske egenskaber

Available variants

ArtNr.	Bezeichnung	Colour	Length
ICUR30100G		black	10.0 m
ICUR30200G		black	20.0 m
ICUR3050G		black	5.0 m

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
