DATASHEET

LTC WALL STRAPS, self-adhesive hook and loop cable holders set of 10 pcs white

General data

The self-adhesive cable holders are inconspicuous and flat. That way, the cables don’t stand out when attached to walls or behind furniture.
LTC WALL STRAPS are extremely durable and can also be used for outdoor purposes in summer and winter. When applying outside, the surface should not be too cold, so that the adhesive properties can achieve their full effect.
The LTC WALL STRAPS are easy to remove and leave no unsightly marks. Note that due to their strong adhesiveness of the cable holders, wallpaper or walls with multiple coats of paint can be affected.
