

# DATASHEET

## General data

802.3af/802.3at/High-Power PoE to remote device Extended PoE connection for additional 100 meters 2 built-in PoE ports for PoE devices Easy plug-and-play installation No additional power required

For system integrators looking for a professional solution to help extend their PoE network, POR-0103 is the perfect accessory to increase your Power over Ethernet network performance. LevelOne POR-0103, a 2-Port PoE Repeater requiring neither configuration nor electrical power, is an innovative transmitter to pass on both data and power extend to another 100 meters. It delivers both data and power to two PoE network devices such as WLAN Access Points, Network Cameras and other appliances with fast speed to the network for greater deployment flexibility.

Port configuration  
Fast Ethernet RJ45 3

General  
Color Grey

Miscellaneous  
Data rate Fast Ethernet  
Cascadable No

Others

### Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.

This datasheet was created automatically on 24-09-2026 . Technical changes reserved.
