

DATASHEET

Vægboxs Fiber optik, Maks. 48 fiber. incl. splidsekassetter

General data

The URM LL 48S optical distribution box is designed for the placement of 48 optical splices indoor and outdoor. The distribution box may be complemented by a bracket, which enables it to be post-mounted.

Maximum capacity is 48 optical splices

Integrated fibre management + 4x KM3 splice tray for the placement of optical splices

Possibility of PLC splitter placement

Fixation of input/output cables

4x PG bushing for input/output cables

Use only for fibers G657 a, b

Lockable door

DIM: 250 x 373 x 69mm

Tekniske egenskaber

Available variants

ArtNr.	Bezeichnung	Unique
URM LL48S	Vægboxs Fiber optik, Maks. 48 fiber. incl. splidsekassetter	Unique

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.

This datasheet was created automatically on 12-09-2026 . Technical changes reserved.
