DATASHEET

General data

The WireXpert MP C8 FS LAN Copper Cable-Z. 3000Mhz from Softing is designed as a CAT 8 certification set with single-mode fibre optics and is intended for fibre optics and twisted pair. The set combines a clear display with documentation-friendly equipment and is designed for the structured certification of modern networks.

• CAT 8 Certification Set with Singlemode fibre – Covers the certification of modern cabling in one set and supports flexible application in everyday measurement.
• LCD display – Clearly displays measurement results and facilitates quick control directly on the instrument.
• Measured value memory and PC/printer interface – Enable secure storage of measurement data and convenient further processing for documentation.

In terms of technical design, the system is aimed at applications with fibre optics and twisted pair. The combination of measured value memory, LCD and PC/printer interface supports clean recording and output of the results. The power supply is provided by a power supply for AC 100-240 V to 12 V and 3 A. This means that the set is designed for

professional use in certification.

Technical details
- Brand: Softing
- Form: CAT 8 certification set, single-mode fibre optic
- Suitable for: fibre Optics, Twisted Pair
- Display type: LCD
- Measured value memory: Yes
- With PC/printer interface: Yes
- Power supply: AC 100-240 V to 12 V; 3 A power supply
